

Low power dimmer LD 220

1-200W

Universal pushbutton dimmer in junctionbox shape.

Specially designed for dimming of low energy- and LED-lamps.

The dimmer is also well suited for dimming of LED-drivers and incandescent light.

Low power dimmer LD 220

Art nr	V-4022010IB
E number	19 020 12 / 13 774 40
Voltage	230V
For dimmable low energylamps	1-200W
For dimmable 230V LED-lamps	1-200W
For dimmable electronic transformers	1-200W
For dimmable LED-drivers	1-200W
For incandescent light	1-200W
For 230V halogenlamps	1-200W
Dimming range	5-100%
Selection of lowest dimming level	Yes
Can be controlled by one or several toggle-switches	Yes
With softstart	Yes
Capable of memorizing most recent light level	Yes
Dimension (mm)	Ø56x22
Isolation class	II
Protection index	IP20
Approvals	CE/S
Manufacturing standard	EN60669
Protection against	
- overload	Yes
- overheating	Yes
- short-circuiting	Yes
Installation	In junctionbox or surface mounting
